CANVAS WRAPS

Fine Art Giclée Canvas Gallery Wraps are printed directly onto museum quality canvas material using high quality archival inks. The canvas print is then wrapped around a stretcher frame so that the photo's edges are visible on the sides of the frame at a 3/4" or 1-1/2" depth. A Lustre laminate is applied to each piece to protect the surface of the print and to provide UV Light protection. No framing needed on Canvas Wraps! Canvases look great as wall collages - we can help you figure out a cluster style to fit your space.

Natural Wrap

Solid Color Bordered Wrap

Canvas Wraps can have a natural border or a solid color border. No price difference. Remember that your photo will be cropped tighter on a Natural Wrap in order to wrap the image onto the sides of the canvas. For a Solid Color Bordered Wrap, just let us know a color you have in mind for the border or we'll pull a color from the photo for you.

THIN WRAPS

ThinWraps™ are a stylish, frameless way to display your images! Printed on Lustre Paper, then over-laminated with a soft Satin Laminate then mounted on Gatorboard. A 1/2" spacer is applied to the back of the ThinWrap™ which allows the image to be hung and appear to float from the wall. No frame needed! These look great as wall collages - we can help you figure out a cluster style to fit your space.

STANDOUT MOUNTS

Add a new dimension to your displays with our Standout Mounts! Prints can be mounted on a thick, lightweight, 3/4" backing available in black that gives a contemporary look to unframed images. Holes are included on the back of the mounts for easy hanging. These are more economical compared to a canvas wrap - but they are more fragile. The 20"x24" wrap also comes in 1-1/2" depth.

METAL PRINTS

MetalPrints™ represent a new art medium for preserving photos by infusing dyes directly into specially coated aluminum sheets. Because the image is infused into the surface and not on it, your images will take on an almost magical luminescence. Ultra-hard scratch-resistant surface is waterproof/weatherproof and can be cleaned easily with any commercial glass cleaner (*avoid direct sunlight*). Creative edge options are available too! Comes with float mount hanger so your metal print will float 1/2" away from the wall.
